The second meeting was held regarding the planning of the new college building at College principal chamber. The meeting was presided by the chief engineer architect Shri Heeranaiah, the Principal Ramaiah Pre University College Flt Lt Sunita Dixit (Retd) put forth the requirements for the college. The meeting was attended by Mrs Shanti principal of Ramaiah Vidhyaniketan and RCPUC ADM coordinator Mrs Poornima Nagesh. A basic drawing of the upcoming building was presented and discussed.,

BIO RANGOLI COMPETITION

In July 13 2024, M.S. Ramaiah Composite Pre-university College hosted a Bio Rangoli competition. This event saw students creatively using natural materials like grains, pulses, and spices to design intricate rangoli patterns that depicted various biological themes such as plant cells, animal structures, and ecosystems. The competition aimed to foster artistic skills, enhance understanding of biological concepts, and encourage teamwork among students. It was a great opportunity for students to showcase their creativity and gain appreciation for their efforts.

Each design was a unique representation of different biological themes such as:

Plant Cells and Animal Cells: Detailed and colorful depictions of cell structures, including cell walls, nuclei, and organelles.

Ecosystems and Food Chains: Illustrations showing the relationships between various organisms and their environments.

Human Anatomy: Rangoli designs representing parts of the human body, such as the heart, lungs, and brain.

Floral and Faunal Patterns: Artistic renditions of various plants and animals, highlighting their biological features.

The competition also included a brief presentation segment where participants explained the biological significance of their designs to the judges. This added an educational dimension to the artistic event, allowing students to demonstrate both their artistic skills and their knowledge of biology.

The event was well-received, with many students, teachers, and visitors appreciating the creative and educational aspects of the competition. It not only fostered a love for biology among the students but also encouraged them to think outside the box and apply their scientific knowledge in innovative ways.

Books Exhibition was organized in RCPUC

On July 13th, 2024, a vibrant books exhibition was held at RCPUC. The event showcased a diverse collection of books across various genres, including fiction, non-fiction, academic texts, and children's literature. Students, faculty, and visitors had the opportunity to explore and purchase books at discounted prices, fostering a love for reading and learning. It was a great platform for literary enthusiasts to connect, share their passion for books, and discover new titles. The event aimed to ignite a passion for reading among students and promote the habit of book reading as a lifelong pursuit. Numerous book stalls were set up, displaying a wide array of genres, including literature, science, technology, history, and self-help. Special sections were dedicated to new releases and bestsellers.

PARENTS AND TEACHERS INTERACTION

On July 13th, 2024, a Parents and Teachers Meeting was held At RCPUC, aiming to foster communication and collaboration between parents, teachers, and students. The meeting provided a platform for discussing students' academic progress, addressing concerns, and setting goals for the upcoming academic year. The Parents and Teachers Meeting was a valuable opportunity for building strong partnerships between the school and families, ensuring a holistic approach to students' education and well-being.
