Our principal Flt Lt Sunita Dixit (Retd) presented annual report and result analysis of Second PUC board exams of our college to the Honorable Chairman Dr. M. R. Seetharam, Honorable Vice Chairman, Dr. M. R. Janakiram and Director Shri. M. R. Ramaiah. We are incredibly grateful for unwavering support the college management provides to the staff and students, which fosters a dynamic and encouraging environment for growth. The management congratulated the entire college community on the exceptional results and appreciated the remarkable performance of our students and staff.

IEEE Outreach Programme from RIT Students

Our Alumni Drithi Kanthote is pursuing Engineering at the prestigious M. S. Ramaiah Institute of Technology. The students of RIT conducted an outreach program on AIEEE.

Outreach programs have been beneficial for PU students as they provide valuable learning experiences beyond the classroom, fostering civic engagement and promoting students to real-world issues, encourage them to apply their knowledge in practical settings and cultivate a sense of social responsibility.

Students learned about AI application in electronics field through this program. They were taught how to use Bread board in circuit connection. They got information about advancement in LDR and Humidity Sensor Circuit. Students enjoyed the session and actively participated in a small quiz.

Ramaiah Observatory

Dr. M. R. Seetharam, Chairman of Gokula Education Foundation inaugurated the Ramaiah Observatory marking a significant advancement in STEM education in the state. One of the first campus in the state to establish a five-metre observatory equipped with a 12-inch reflector telescope. The facility was unveiled by Dr. M. R. Seetharam, Chairman of the Gokula Education Foundation (GEF), along with other GEF officials. Students learnt how to use telescope to see celestial objects.

Admission Spree at RCPUC for the Academic Year 2025-2026

Following the announcement of SSLC exam results, RCPUC experienced a notable surge in student applications. In May, the college bustled with 1st PUC admissions. The process involved several steps, with distinct roles for staff members. Teachers distributed application forms, guided parents and students in form-filling, addressed queries regarding admissions, fees, subject combinations, and provided orientation about the college and course details.

An online test was administered to all students to ensure a fair and equal opportunity for everyone.
